

ProSystems Clean Care

After over a decade of challenging transfers and corporate changes, in 1983 **John Mayes** decided to return home from Decatur, Georgia

and begin his own business. After acquiring an idea, a business license and a few supplies, he began a one-man janitorial service. On the first job of his new company, Mayes had to hire help, to whom he agreed to pay 50% of the contracted \$150.00. He had hoped that this additional support would help move him more quickly to the next job. But things didn't exactly work out that way.

When the helper broke a window, John stepped in to replace the glass immediately. He still paid the helper in full. Any earnings were gone, but it set in place how John would conduct his business for the next 22 years. It was a matter of "Integrity."

It's that kind of reputation that helped Mayes to grow a small entrepreneurial enterprise into a major Rome business. Today in Northwest Georgia, **ProSystems Clean Care** is a leader in the residential and commercial cleaning industry, providing a trained staff with state-of-the-art equipment. ProSystems is equipped to meet any residential and commercial cleaning need. ProSystems stands as a testimony to what a person can do when he makes up his mind to succeed.

John Mayes keeps ProSystems Clean Care at the top of industry standards. ProSystems specializes in all types of floor cleaning including hardwood, tile and carpet. They are Oriental rug specialists and also clean upholstery. **ProSystems is constantly growing and adding more services to meet public needs.** One such service is Mold Remediation, which involves removal of both mold and mildew from homes, buildings or vehicles. People are learning that uncontrolled mold is a health risk, and it must be treated by exact (certified) standards. Mayes is a certified Microbial Remediation Specialist. Additionally, ProSystems provides complete Restoration Services for such things as fire, smoke and floods. Working with most insurance claim adjusters, ProSystems provides and insures that lives and livelihoods are restored and back in operation quickly. For customer convenience, ProSystems owns and operates a warehouse and mini-storage facility to accommodate all of their customers' storage needs.

John Mayes, Owner of ProSystems

ProSystems professionals are also well trained to provide the services required for removal of biohazardous materials, chemical damage of explosives, teargas residue and crime scenes. They work in cooperation with law enforcement and are available 24/7 for all emergency cleanup situations.

A long-time community advocate, Mayes has served as a Floyd County Commissioner since 1998, and one term as Chairman. With the commission he serves as Public Safety Chairman and holds a position on the Floyd County Board of Health, Rome Floyd Commission on Children and Youth and the Sara Hightower Regional Library Board. Mayes is a Rome Rotarian and a long-time Member of the Greater Rome Chamber. In 2004, Mayes was appointed by **Governor Sonny Perdue** to the State Board of Corrections. Mayes is a member of **Pleasant Grove Baptist Church** where he serves as a Trustee. In his spare time he devotes his efforts to his favorite project – "Camp Uncle John" – a retreat camp that he began in 1999. This project is used to support and encourage our youth in a country setting with the goal of helping them understand the importance of education, responsibility, character and integrity.

John Mayes and ProSystems Clean Care are prime examples of success in industry and leadership standards throughout Northwest Georgia. ■
