

## SALON 103

**A**t age 40, **Joan Brady** researched information on how to make her skin healthier and at that same time was given the option for a career move, and move she did. Starting her business – **Salon 103** – at 103 Broad Street, Downtown Rome, brought her booming business and new opportunities. Those opportunities led her to her current location in River Crossing, Downtown Rome, inside the **Hawthorn Suites** building.

“We take care of your entire skin,” Brady said, noting that her salon is not only for hair – but for skin, nails and other areas to ensure that your entire skin is healthy. “Your hair and nails are an extension of your skin. We make sure that the whole package is taken care of correctly and naturally.”

Salon 103 is an anti-aging center with the latest technology for anti-aging, massage therapy, hair, nails, skin treatments and tanning. The salon carries Dermalogica skin care products, one of the fastest growing and top rated products in the country. These products are highly concentrated and are pharmaceutical graded with the approval of the American Board of Dermatology. Salon 103 can give you the ultimate in what is referred to as the “Lunch Time Face Lift.” This new micro-current technology re-educates muscles in your face and assists in collagens to give the face a firmer, plumper look.

A new service that the salon is providing is that of Sun Protection. The Sun Protection technology has Smart Booster Technology with titanium dioxide. When the sun hits this product, it releases micro-beads of anti-oxidant bursts to protect skin. For a healthy tan, the salon also offers

*“We take care of your entire skin,” Joan Brady said, noting that her salon is not only for hair – but for skin, nails and other areas to ensure that your entire skin is healthy.*

sunless tanning that also aids in the anti-aging process.

“Salon 103 carries our own private label of skin products – ‘TruMinerals.’ This product is all natural and derived from minerals from the earth and is great for your skin,” Brady said. “We can do face and body mapping to see exactly what type of skin treatment is best for you – no two faces are alike.”

If your wanting to stay the day, you can relax with a manicure, pedicure, massage, body & facial mapping, skin treatments, a new hair style and gourmet lunch.

The new location is great for business – with customers finding

a serene environment with easy parking as well as in their own hotel, the Hawthorn Suites, the location makes for an easy choice.

“We have a lot of traffic from the hotel – business men and women like to come in and have the massage therapy, it’s a big hit.”

The Salon is open from 10:00 am until 6:00 pm Tuesday through Friday and opened for later appointments. For more information on your spa package or to make an appointment, contact Joan at 706.378.0000. ■
