PROFILE EXTRUSION BREAKS GROUND FOR EXPANSION

Profile Extrusion broke ground for their expansion, the second in the company’s 46 years of business in Rome & Floyd County. The expansion will be an investment of 7 million dollars and will eventually create jobs for 20 new employees in downstream processes. The new addition will share the property with the existing site. In addition to the expansion of the plant, the company will also gain a new press for significant advancements in production and quality.

“We are here because of the work force we have in Rome. If it were not for our employees, this project would not be possible,” said **David Newby (LR ’93)**, General Manager of *Profile Extrusion*. Profile, a manufacturer of aluminum goods and fabrications, has been in Rome

& Floyd County since 1946, reiterating the fact that the workforce and community in Rome and Floyd County support the local existing industries.

County Commissioner Tom Bennett said, “I am pleased that Profile chose Rome and Floyd County to start their business and are now continuing with their expansion.”

“It is extremely gratifying to see all of our industry & businesses succeed,” said *Rome Mayor Ronnie Wallace (LR ’87)*. “It is especially gratifying when our existing industries can still shine after many years in our community. Their success can be contributed to the hard work and tireless efforts of the great employees at Profile.” ■

(L-R) *Floyd County Commissioner Tom Bennett, Profile Administrative Manager Tom Wolter, Profile General Manager David Newby, Construction Coordinator Jim Garner, Rome Mayor Ronnie Wallace, Profile Production Manager Ron Williams and Profile Engineering Manager Danny Thomas* break ground on the new Profile expansion.
