

# Vend-Rite, Inc.

**S**erving the Rome and Floyd County area has always been a pleasure for the Kight family. **Cecil** and **Georgia Kight** and now their children **Andy Kight** and **Robin Wright** have served this community for over 45 years. For almost 10 years, the Kight family has been serving the businesses and employees of this area through their vending company, **Vend-Rite, Inc.**

"Small enough to know you, large enough to serve you," has been their motto as they serve businesses both large and small. Their full-line vending company provides vending machines and coffee and water service for large industries, including **F & P of Georgia**, as well as smaller offices.

The company currently employs four full-time and two part-time employees. The family-operated business installs, services and maintains all of their vending machines and customizes their service schedules to suit the needs of each customer. They make many of their own sandwiches in their kitchen, approved by the Department of Agriculture. This ensures their customers receive the freshest products.

"When we are supplying a company with vending services, we are providing our friends, neighbors and
