Harbin Clinic, Scott Logistics ... (continued from page 1)

24,000-square-foot building integrates four Rome-based locations under one roof.

Like the new Harbin Clinic Specialty Center, Scott Logistics' new facility is high-tech. With fiber optic cables wired throughout the building, Scott Logistics is able to easily handle the increased data, voice and video demands that come with the consolidation all of its services under one roof.

The facility also features a separate building that includes an employee exercise facility, a kitchen and meeting space. There is also an outdoor walking/running track for employees adjacent to the parking lot.

Since its inception in 1995, Scott Logistics has grown

from an operation with just two telephone lines and two computers to a booming business with over \$40 million in annual revenue.

Congratulations to both the Harbin Clinic and Scott Logistics for their latest expansions.
